WHERE and HOW CAN I USE THIS PRODUCT ?

Used throughout Banks, Airports or Malls, ViewTV's Playlist Exchange Rate feature allows you to display dynamic rates and other information in public view throughout multiple locations, all networked back to a central management online hosted account.

... AND HOW WILL THIS PRODUCT BENEFIT ME ?

Using ViewTV's Playlist Software and Digital Signage PC, turn any TV/Monitor into a dynamic High Resolution remotely updateable digital exchange rates display.

Login and update rates (or any information) remotely from anywhere in the world via ViewTV's Network (Internet/Locally) based client user accounts.

Internet access via a web browser from any device (PC, Tablet, MAC, Smart Phone). ViewTV also offers locally hosted options for clients with closed internal networks.

ROBUST & FUTURE PROOF

Built using industrial PCB circuit boards encased in powder coated steel cases, ViewTV industrial Digital Signage PC's are specifically designed to operate 24/7.

LOGIN, UPDATE, SAVE!

Simply login to your account, Edit the desired Rate or Information & Click Accept! All displays that are associated with this Rate (Pre determined by you) will instantly update and display the new Rate. Displays can also be grouped to display the same or different Rates.

WINDOWS, MAC, ANDROID

Exchange Rates are updateable remotely from any device running a Chrome browser!
