

Touch Screen Overlays

VIEWTV LANDSCAPE / PORTRAIT COMMERCIAL GRADE (MULTI TOUCH) TOUCH SCREEN OVERLAYS

WHERE and HOW CAN I USE THIS PRODUCT ?

Used and compatible with all LCD or Plasma, Landscape or Portrait Digital Displays, PC Monitors or Video Walls.

ViewTV's purpose designed and built industrial commercial grade Touch Screen Overlays plug into any Windows 7/8, MAC or Linux based PC via USB instantly adding Multi-touch input to your device.

... AND HOW WILL THIS PRODUCT BENEFIT ME ?

ViewTV Touch Screen Overlays are available in any size. Simply fix the overlay to the face of your TV, Monitor or Video Wall (Via straps, adhesive, or brackets), and plug in the USB connection.

This technology is a super affordable way to create a large screen Multi-touch input touch screen using your existing PC, OS and Display.

ROBUST & ACCURATE

Built using industrial PCB circuit boards encased in powder coated steel frames fixed to toughened acrylic transparent sheets.

AVAILABLE IN ANY SIZE!

ViewTV offers Touch Screen overlays in any size from 17" up to 500" in diameter.

All touch screen overlays are only 15 mm thick.

WINDOWS, MAC, LINUX

Supplied with all required drivers for Windows 7/8, MAC OS and Linux based PC's. Single & Multi-Touch drivers available.
